

Shishant Yadav

AI/ML Engineer | Full Stack Developer

+91 9536964266 | <mailto:shishantyadav9636@gmail.com> | LinkedIn- [Shishant yadav](#) | Github- [shishantyadav006](#)

Professional Summary

Computer Science and Engineering (AI & ML) undergraduate skilled in Python, SQL, JavaScript, HTML, CSS, Data Structures, Algorithms, and Object-Oriented Programming. Built AI-driven applications achieving 90%+ accuracy and full stack web solutions through academic and hackathon projects. Completed a cybersecurity internship focused on vulnerability assessment and secure development. Strong problem-solver with interests in Artificial Intelligence, Software Development, and Full Stack Development.

Education

Bachelor of Technology in Computer Science and Engineering (AI & ML)

2023 2027

Anand Engineering College

CGPA: 7.2/10

Technical Skills

Programming Languages: Python, SQL, JavaScript, HTML, CSS

Core CS Fundamentals: Data Structures, Algorithms, Object-Oriented Programming (OOP) Web

Development: HTML, CSS, JavaScript Tools & Platforms: Git, GitHub, VS Code

Relevant Coursework: Database Management Systems, Operating Systems, Computer Networks, Software Engineering, Artificial Intelligence

Projects

AI-Based Leaf Disease Detection and Prevention System

- Developed an AI-based Agritech application to identify crop and plant diseases from uploaded leaf images.
- Designed and built the user interface using HTML, CSS, and JavaScript for a smooth end-to-end user experience.
- Applied image classification techniques to detect disease type and generate prevention recommendations.
- Achieved over 90% accuracy during project evaluation. **AI-Based Text and PDF Summarization Tool**
- Built a document summarization tool that generates concise summaries from text and PDF
- Implemented keyword extraction to surface key terms and concepts from source documents.
- Condensed approximately 500-word documents into focused 50 - 60 word summaries, reducing reading time significantly. Achieved over 90% effectiveness during project testing.

Experience

Cybersecurity Intern

1 Month

Pinnacle Labs (Remote)

- Identified security vulnerabilities and weaknesses across software systems through hands-on assessment.
- Performed vulnerability assessment and security analysis activities under mentor guidance.

-
- Applied cybersecurity fundamentals, authentication concepts, and secure development practices. Built a Password Strength Checker application as part of internship deliverables.

Hackathons & Leadership

1.Smart India Hackathon (SIH) 2025 Participant

- Contributed to the design and development of an AI-powered Smart Crop Advisory System.
- Took part in problem analysis, solution design, and technical discussions with a cross-functional team.

2.Chandigarh University Lucknow Hackathon Participant

- Collaborated with a team to build and present a technology-based solution within a limited timeframe.
- Strengthened teamwork, presentation, and problem-solving skills under time constraints.

3.College Event Coordinator & Anchor

- Hosted and coordinated college events and fresher programs for audiences of 100+ students.
- Demonstrated leadership, communication, and public speaking skills.

Certifications

-
- **Tata Forage Job Simulatio - Cybersecurity IAM Developer**
 - **Cybersecurity Internship Certificate- Pinnacle Labs**
